FROM

THE SECRETARY TO THE HON'BLE THE RESIDENT IN MYSORE.

To

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore, Bangalore.

War

Dated Bangalore, the 2nd June *194* 2.

IDENTITY DISCS.

SIR,

I am directed to forward for information a copy of the Government of India, Civil Defence Department letters to all Provincial Governments, etc. No.78/274/41-A.R.P.II, dated the 19th February 1942, No.78/274/41-A.R.P.(C.D.), dated the 7th March 1942 and No.44/42-A.R.P.I(S), dated the 7th May 1942.

2. I am to request that, if there is no objection, action may kindly be taken as suggested in paragraph 2 of the letter of the 7th May 1942, should occasion arise.

3. I am also to request to be informed whether the Government of Mysore wish to participate in the scheme, and if so, the information asked for in paragraph 9 of the letter dated the 19th February 1942 and paragraph 3 of the letter dated the 7th March 1942 may kindly be furnished to this Residency for communication to the Government of India.

4. With reference to the concluding portion of paragraph 10 of the letter of 19th February 1942, the Government of India state that the cost of the identity discs will be recoverable in full from the Indian States.

I have the honour to be,
Sir,
Your most obedient servant,

Muhammad Nasim.

For SECRETARY TO THE RESIDENT.

Government of India, Civil Defence Department letter No.78/274/41-A.R.P.II, dated 19th February 1942, to all Provincial Governments and Chief Commissioners.

- - - - - - - - -

I am directed to refer to this Department letter No.78/274/41-A.R.P. dated the 15th August 1941 and to say that Rangoon experience has emphasized the improbability of air raid casualties being identified unless Government itself takes steps to facilitate this.

2. The Government of India now, therefore, propose to manufacture identity discs centrally and to distribute them to Provincial Governments according to their requirements. The discs to be distributed will be made of wood, painted red and bored with two holes so that they can either be hung round the neck or tied to the wrist or arm. The discs will be stamped with a series of numbers from 1 to 9999, each series of numbers being preceded by a letter of the Alphabet. Each alphabetical series will, therefore, cover roughly 260,000 discs. Below the serial number will be stamped a Roman numeral. As Roman numerals are illimitable this system will allow any number of discs being issued and the Roman numeral read together with the letter of the alphabet will indicate at once the exact area to which an identity disc refers. Lists will be furnished to all Governments of the areas to which identity discs have been issued and the distinguishing Roman numerals and letters of the alphabet and serial numbers of the issues made to each area.

3. Religion can be shown by stamping, above the serial number on the disc, letters such as 'H' for Hindu, 'M' for Muslim, 'P' for Parsee, 'S' for Sikh, 'J' for Jain, 'JE' for Jew and so on. This might best be left to Provincial Governments to do as any attempt to do this at the Centre would complicate supply problems. It is desirable that religion should be indicated not only in order that corpse disposal organisations may know whether cremation or burial should be adopted where possible but also for statistical and historical purposes.

4. These identity discs should, in the first instance, be offered for sale and it is suggested that the most suitable

agencies to sell them would be

(i) Post Offices

(ii) Police Stations

(iii) Sub-Registry Offices

(iv) L.S.G. Bodies

(v) Large shops

(vi) Managers of large industrial concerns

(vii) Railways as regards Railway employees and their families

(viii) Air Raid Wardens by house to house canvassing.

5. The Government of India propose that, as each identity disc is sold, a chalan in duplicate should be filled up showing the following information in block capitals:-

(i) Number of disc and religious marking

(ii) Name and address of persons to whom issued

(iii) Father's or husband's name.

(iv) Caste or sect within main religion.

(v) Name and address of next of kin.

One carbon copy would be kept for record and accounts purposes by the vendor and the original would be sent to the local Air Raid Precautions authorities for filing in their Civil Defence Information Bureau. As these chalans will be of the greatest importance, Provincial Governments may prefer to have them made out in triplicate and to have the original and one carbon copy sent to them in order that the copies can be kept in some place of safety outside the danger areas in case the originals are destroyed.

6. Identity discs of unclaimed corpses would be sent to the Civil Defence Information Bureau which, from the chalans would be able to enter on its casualty lists the name and address of the person to whom the disc had belonged and to take any other steps to inform relatives which Provincial Governments may prescribe. If the disc was of a series belonging to some other locality the Civil Defence Information Bureau, by reference to the lists mentioned in paragraph 2 above, would be able to pass on to the locality concerned the number of the disc and information

as to what had happened to its owner.

7. It is considered that if the discs are put on sale at one anna each this would be sufficient to cover the cost of discs and chalans, the expenses incidental to distribution and to provide for distribution free to the comparatively small number of people who could ill afford to buy them. It is suggested that free distribution might be done by Air Raid Wardens in accordance with such instructions as Provincial Governments may issue.

8. It is considered desirable to introduce the scheme on a voluntary basis at first and to precede and accompany its introduction by considerable propaganda. The scheme could probably be popularized by laying stress on the fact that the possession of a disc would make compensation and pensions for dependents quite certain whereas without such a disc it might prove impossible for dependents to substantiate a claim that their relative had in fact been killed in an Air Raid and also that a system of personal identification such as this is common place in countries liable to air attack. If the response to the voluntary scheme is not satisfactory, it may be necessary to make the wearing of an identity disc compulsory.

9. It is to be understood that if any person already has an identify disc with his name and address on it, there is no need for him to purchase one of the Government discs unless he wishes to do so.

9. I am to ask that comments of Provincial Governments on the scheme as detailed above may be communicated to the Government of India as early as possible. If Provincial Governments would like to cooperate in the scheme I am to request that an estimate of the number of discs they require may be included in the reply. The intention is to confine distribution in the first instance to those places which are most liable to attack. The number of discs required on a population basis for already classified Air Raid Precautions towns is in the neighbourhood of thirteen million so that some discrimination is required at first in view of the time required to manufacture and supply so large a quantity.

10. I am to add that the Post Office is agreeable to undertake the sale of these discs at all Post Offices in towns in which their distribution is decided upon by Provincial Governments and that the intention of the Government of India is to supply numbered identify discs in bulk to Provincial Governments leaving it to those Governments to arrange for their distribution to Post Offices, Railways and other selling agencies within their jurisdiction after stamping the religion mark on the discs. If any Provincial Government finds itself in any difficulty about stamping the religion marks on the discs the Government of India will be glad to advise where this can be done. The Government of India also propose to leave it to Provincial Governments to arrange for the printing and distribution of the chalans.

The cost of the identity discs will be debited to the Provinces and all expenditure will be poolable under the slab system. Recoveries will be shared between the Centre and the Provinces on an over-all ratio as agreed to at the Air Raid Precautions Finance Conference held on the 19th January 1942.

11. Finally, I am to say that General Headquarters are anxious that serving soldiers should be notified if their next of kin becomes an Air Raid Precautions casualty and to request that, if Provincial Governments have no objection, when the chalan indicates that the next of kin of a casualty is a serving soldier particulars of the casualty should be forwarded as early as possible to the nearest Military District Headquarters who will then take the necessary steps to inform the serving soldier.

Copy of a letter from the Government of India, Civil Defence Department, to all Provincial Governments and Chief Commissioners, No.78/274/41-ARP(C.D.), dated the 7th March 1942.

----:0:----

IDENTITY DISCS.

In continuation of this Department's letter No.78/274/41-ARP II, dated the 19th February 1942, I am directed to state that it has been found impossible to arrange for the numbering of identity discs except by hand stamping.

It would, therefore, only cause delay if the Government of India attempted to stamp numbers on the discs before issue to Provinces and it would be better to spread the task and for each Province to engage a number of mistries with the necessary hand punches, so that the work could be done simultaneously in a number of centres.

2. The Government of India would send a sample stamped disc to illustrate the depth to which punching should be done and would also supply Provincial Governments/(you) with the necessary punches

) To Chief Commissioners only.

In supplying blank discs the Government of India would also indicate the serial numbers and letters that should be stamped on them so as to prevent any duplication of numbering in the Provinces.

3. I am accordingly to request the Provincial Government/(you) if they/(you) desire to participate in the scheme, to indicate the number of sets of punches required.

Each set of punches would consist of: -

(a) A set of as many alphabetical capitals as were required
(i) for prefixing a capital to the serial numbers and
(ii) for indicating religion.

In the case of a full set of alphabetical capitals being required for prefixing to the serial numbers no further capitals would be required for denoting the religion.

(b) A set of numerals from 0 to 9

(c) A set of as many Roman numerals as were required.

----:0:----
